All,

This came to our attention this morning. Judge Branick is not happy and I called Chief Havens and he had no knowledge of this huge event until I called him.

Thanks

Seriously?? Did I just receive an automated phone call telling me not to talk to family, friends and media about the conditions in Motiva so we don't lose our competitive edge??? Conditions of a leaderless RLT without the courage to shut down early. A company that sends my members in chest high, oil filled water to shut down equipment. A company that didn't have a plan in place and couldn't even feed those that secured their assets. A company that will not take responsibility for oil filled, flooded vehicles those people. A company that is not helping people clean their homes like all other local refineries. A company owned by the richest people on the planet. You can take your competitive edge and shove it up your a**!

PS- We will not let Motiva 2.0 forget how they have forgotten us.
